Overview

This manual explains how to sign in to the Candidate Management System, open an authorized application, add interview details, and search for candidate records.

Intended audience

This guide is intended for users who manage candidate and interview information in the system.

Prerequisites

Before you begin, make sure that you have:

- An active system username and password.
- Access permissions assigned by the system administrator.
- Candidate information and supporting files, such as a resume and identification documents, when required.
- A supported browser and a stable network connection.

Conventions used in this guide

- **Bold text** identifies buttons, page names, and field labels.
- An asterisk (*) identifies a required field.
- “Select” means choose an option from a drop-down list.
- “Enter” means type information into a text field.

Sign in

Use the credentials provided by your system administrator to access the system.

1. Open the system sign-in page.
2. Enter your **Username**.
3. Enter your **Password**.

4. Select **Sign In**.

After your credentials are accepted, the **Welcome Center** is displayed. The applications and features available to you depend on your assigned role and permissions.

Security note: Never share your password. If you cannot sign in, contact the system administrator instead of repeatedly attempting unknown credentials.

Welcome Center

The Welcome Center is the system home page. It provides access to the applications and features available to your organization.

The page generally includes:

- A primary navigation bar.
- A dashboard with links to available applications.
- Access to permitted candidate-management functions.

Select the required application or function from the navigation bar or dashboard.

Access an application

Steps

1. Sign in to the Candidate Management System.
2. From the **Welcome Center**, locate the required application.
3. Select the application name or dashboard link.
4. Confirm that the application page and available functions match your assigned permissions.

If the required application is not visible, contact your system administrator to verify your access rights.

Add interview details

Use **Add Interview Details** to create a candidate interview record.

Procedure

1. Select **Add Interview Details**.
2. Complete the candidate, location, employment, and document fields described below.
3. Review all information for accuracy.
4. Select **Save** to submit the record.

Candidate and location information

Field	Required	Instructions
Client Name	No	Select the applicable client from the drop-down list.
Branch Location	Yes	Select the applicable branch location.
Work Location State	Yes	Select the state where the candidate will work.
Work Location City	Yes	Select the applicable work location city.
Full Name	Yes	Enter the candidate's full name.
Mobile Number	Yes	Enter the candidate's primary mobile number.
Alternate Mobile Number	No	Enter an alternate mobile number, if available.
Email Address	Yes	Enter the candidate's primary email address.
Alternate Email Address	No	Enter an alternate email address, if available.
Gender	Yes	Select the candidate's gender from the drop-down list.
Work Location	Yes	Select the candidate's current or applicable work location.
Permanent State	Yes	Select the candidate's permanent state.
Permanent City	Yes	Select the candidate's permanent city.
Remarks	No	Enter additional relevant information, if required.
Date of Birth	Yes	Enter the candidate's date of birth in the format accepted by the application.

Qualification and source information

Field	Required	Instructions
Highest Qualification	Yes	Select the candidate's highest qualification.
Source Type	Yes	Select how the candidate was sourced.

Identification and resume files

Field	Required	Instructions
Government ID Number	No	Enter the candidate's identification number only when required and authorized.
ID Document Front Image	No	Select the front image of the identification document using Choose File .
ID Document Back Image	No	Select the back image of the identification document using Choose File .
Resume File 1	Yes	Select the primary resume using Choose File .
Resume File 2	No	Select an additional resume, if required.
Resume File 3	No	Select another additional resume, if required.

Required fields: Complete every field marked with * before selecting **Save**. The system may display a validation message when required information is missing or invalid.

Employment information

Field	Required	Instructions
Work Experience	Yes	Select the applicable work-experience category.
Current Company	No	Enter the candidate's current company name.
Total Experience	No	Select the candidate's total years of experience.
Role	Yes	Enter the role for which the candidate is being considered.
Designation	Yes	Select the applicable designation.
Department	No	Select the applicable department.
Notice Period	No	Select the candidate's notice period.
Current Salary	No	Enter the candidate's current salary when required.
Expected Salary	Yes	Enter the candidate's expected salary.
Vehicle Requirement	No	Select whether a vehicle is required.
Smartphone Availability	Yes	Select the candidate's smartphone availability.
Preferred Notification Language	Yes	Select the candidate's preferred notification language.

Form actions

Action	Description
Save	Saves the completed interview details.
Reset	Clears or resets the values entered in the form. Unsaved information may be lost.
Switch Mobile Number	Switches the mobile-number value according to the system's configured behavior. Verify the displayed number before saving.

Recommended review checklist

Before saving, verify that:

- The candidate's name, mobile number, and email address are correct.
- The work and permanent locations are accurate.
- The date of birth and salary values are entered correctly.
- The primary resume is attached and opens correctly.
- Identification documents are uploaded only when authorized.
- The preferred notification language and smartphone details are correct.

Search for a candidate

Use candidate search to locate an existing record and review or update its details.

Quick search

1. Enter the candidate's **Name** or **Mobile Number** in the search field.
2. Select **Search**.
3. Review the matching records.

Search results may include the following information, depending on your role and system configuration:

- Source Type.
- Temporary User Code.
- Client Name.
- KYC updates.

- Compliance Status.
- Offer letter status.
- User ID.
- Employee Code.
- Assigned User.
- Candidate Name.
- Mobile Number.

Available actions

- Select **Edit** to update the candidate's details. Review the changes before saving.
- Select **To Call** to initiate a call to the candidate, if calling is enabled and you have permission to use it.

Privacy note: Search results may contain personally identifiable information. View, edit, and share candidate data only for authorized business purposes.

Troubleshooting

Issue	Recommended action
Sign-in fails	Check your username and password, then contact the system administrator if the problem continues.

Application is not visible	Ask the system administrator to verify your role and permissions.
Required-field message appears	Complete all fields marked with * and review invalid values.
File upload fails	Confirm that the file is available, readable, and in an accepted format, then try again.
Candidate cannot be found	Search using the exact mobile number or a different spelling of the candidate's name.
Changes are not visible	Confirm that you selected Save , then search for the record again.
Wrong mobile number is displayed	Use Switch Mobile Number only after confirming the intended number, then save the record.

If the issue persists, record the page name, steps taken, time of occurrence, and any displayed error message before contacting support. Do not include passwords or unnecessary personal information in a support request.
